

Foreword

This volume consists of two sections.

The first section contains the proceedings of two workshops entitled “*Vector Bundles Days*”, that took place respectively at the *Université de Pau et des Pays de l’Adour* on 11-12 April 2013, and at the *Università di Trieste* on 29-31 January 2014. This part contains eleven articles from invited speakers at the two workshops, and has been edited by Daniele Faenzi and Jean Vallès as guest editors. We are grateful to them for their valuable work.

The second section contains papers accepted for publication in *Rendiconti dell’Istituto di Matematica dell’Università di Trieste* in the course of 2015.

We thank all the authors for their contributions.
